

VIRGINIA PUBLIC UTILITIES

Addendum to Request for Interest in Purchasing Power Supply

July 23, 2018

Virginia Public Utilities

Addendum to Request for Interest in Purchasing Power Supply

Question 1: Is the resource providing this contract classified as Behind the Meter (BTM)?

Yes, it is. Bidders should understand that energy from this transaction will be settled financially at the delivery node specified in the final agreement.

Question 2: Who will be the market participant for this transaction?

VPU has not yet decided if it will become a market participant, or let another organization carry out the work on its behalf. CMPAS is having consultations with VPU to determine what would be easiest for both VPU and the eventual counterparty (or counterparties).
